

#### REMARKS

The claims have been amended to more clearly define the invention as disclosed in the written description. In particular, the claims have been amended for clarity.

Applicant believes that the above changes answer the Examiner's objections to claims 11 and 31.

The Examiner has rejected claims 1-6 and 20-30 under 35 U.S.C. 101 in that the claimed invention is directed to non-statutory subject matter, the claims each claiming a "television program profile interface" which is non-statutory subject matter.

Applicant submits that claims 1-6 and 20-30 as presently amended claim "a television apparatus having a display on which is generated a television program profile interface...." As such, Applicant believes that claims 1-6 and 20-30 are now statutory.

The Examiner has further rejected claims 11 and 31 (along with 32 and 33) under 35 U.S.C. 101 in that the claimed invention lacks patentable utility.

Applicant submits that claims 11 and 31-33, as presently amended, now claim a method of displaying a television viewer profile. As such, Applicant believes that the invention as claimed therein is indeed statutory.

Applicant believes that this application, containing claims 1-6, 11 and 20-33, is now in condition for allowance and such action is respectfully requested.

Respectfully submitted,
